

## **FrontEnd Lead (QB-FL-20250425)**

**Bs As / Contract / Remote**

We are looking for ambitious, talented engineers with a strong technical background who want to make a huge impact and join a growing team in a fast-moving, entrepreneurial space.

As a Front-End Developer Leader, you'll bring deep expertise in JavaScript, HTML, CSS, and Vue or React. The ideal candidate thrives in fast-paced environments, takes ownership, and delivers clean, high-performance solutions across web, tablet, and mobile platforms. If you're passionate about building scalable, impactful software, we'd love to hear from you.

### **What we're looking for:**

- 10+ years Front-end experience, including Javascript, Typescript, HTML, CSS is a must.
- 5+ years of working experience in building production applications
- Solid experience leading teams
- Engineering experience working with large user base multi-service platforms
- Experience with cloud based environments
- Experience in working with agile development practices
- Experienced writing clean code and using design patterns and frameworks
- Comfortable with JS frameworks such as **Vue.js**, Angular, or React
- Experience building for Tablets and Mobile Devices
- Comfortable working with and testing 3rd party APIs
- Comfortable designing complex and large web systems

### **Desirable skills**

- Experience building for Android and Electron
- Experience building with Nuxt
- Experience working with NoSQL databases
- .NET core, C#, MongoDB, Microservices + GraphQL is a plus
- Experience developing products for the restaurant/hospitality industry
